

Make your own pennant!

Instructions

1. **Decide what your pennant will represent.** It can involve your family, your class, or a group of any kind to which you belong. It does not have to be a sports team, simply a group important to you. Check out some examples on the website.
2. **Make a list of words, memories, and ideas** that make this group a great “team” or you a great “teammate”—inspired by what you’ve learned about Jackie Robinson.
3. **Make your pennant.** Use this printed template or draw your pennant on a sheet of paper. To draw a pennant, use a ruler to make a triangle with two equal sides and one shorter side. Try measuring 11 inches for the long sides and 7 inches for the short side.
4. **Cut out your pennant.**
5. **Collect or draw decorations.** You can cut out decorations from the template or cut out pictures or words from magazines. You can also use stickers or draw and cut out your own decorations.
6. **Decorate your pennant with the cut-outs using glue or tape.** Use markers, crayons, or colored pencils to add words and drawings that represent your team.
7. **Wave your pennant to show your team spirit!** Use tape to secure your pennant to a broom handle or even a pencil to wave it around or just hold it up by hand.
8. **Have an adult help you post a photo or video** of your pennant on social media and tag [@JRFoundation](#) on Twitter and Instagram or [@JRF42](#) on Facebook.
