

I come before you tonight bitter and discouraged - I am bitter because I find it difficult ~~to go out and work to~~ this land that I ~~once~~ loved and was willing to fight does NOT have the same meaning for me and my black people as it does for our white Brothers I am bitter because I have to constantly say to ~~white~~ Black America that while we are bitter and discouraged we must not sit by and say what's the use we must reclaim what is as much ours as anyone else we must work to reclaim this land and to take back the flag which has now become the personal property of the kind of bigot who says "take it or leave it" yes this land does belong to Blacks as well as whites and as the grand son of a slave who got a chance to write a little bit of history <sup>in this land</sup> because of a man who thought as so many members of NCCG think, I love so much of <sup>this land</sup> it and frankly I am not going any place until I can love all of it. Rather than heed those bigots advice. I am going to help liberate it. I think this is what NCCG is all

I come before you tonight bitter and discouraged – I am bitter [crossed out: because I find it difficult to go out and work to] this land that I [crossed out: once] loved and was willing to fight does not have the same meaning for me and my black people as it does for our white brothers. I am bitter because I have to constantly say to [crossed out: white] Black America that while we are bitter and discouraged we must not sit by and say whats the use. We must reclaim what is as much ours as anyone else. We must work to reclaim this land and to take back the flag which has now become the personal property of the kind of bigot who says “take it or leave it”. Yes this land does belong to blacks as much as whites and as the grandson of a slave who got a chance to write a little bit of history [added: in this land] because of a man who thought as so many members of NCCJ thinks, I love so much of [added: this land] and frankly I am not going any place until I can love all of it. Rather than heed those bigots advice. I am going to help liberate it. I think this is what NCCJ is all /
